

KÄRCHER

makes a difference

MORE THAN JUST STEAM

Professional steam cleaners and steam vacuum cleaners from Kärcher

PROFESSIONAL | SGV 8/5 | SGV 6/5 | SG 4/4 | SGG 1

VERSATILE ALL-ROUNDERS FOR DIVERSE CLEANING TASKS

Whether it is wet and hygienic areas, any type of hard floor, all glass and tiled areas, fittings and, with the right accessories, also textile surfaces: our professional steam cleaners and steam vacuum cleaners prove that steam can be much more than just hot air. When used properly, steam reliably ensures almost germ-free cleanliness without any chemicals and also protects materials, the environment and your wallet.

FULL STEAM AHEAD ×3

And here are the protagonists of our product line. The trio impresses professionals with intrinsic values full of intelligent ideas, plenty of power, easy operation, environmental friendliness and economy.

All-rounder against dirt

Our SGV 8/5 steam vacuum cleaner impresses with top-class results for the removal of stubborn dirt on hard floors, stainless steel or glass surfaces. And not only that: it also boasts an intelligent self-cleaning function that effectively removes deposits on the inside and extends the service life of the machine.

Compact and powerful

Compact dimensions, short heat-up times, long work intervals and astonishing 4 bar steam pressure characterise our SG 4/4 steam cleaner. For cleaning, the amount of steam and saturation are perfectly adapted to your floors and areas thanks to our innovative VapoHydro function - with compatible accessories it even handles textile coverings such as carpets or upholstery.

Chewing gum problem? Solved!

Dried-on chewing gum is annoying to say the least, but often also more than that. Our SGG 1 chewing gum remover that can be worn comfortably on the back removes chewing gum using an effective combination of steam and a biodegradable cleaning agent made from sugar beet extract. In seconds. And its battery lasts for hours.

**KILLS 99.999%* OF BACTERIA
WITHOUT CHEMICALS**

**CERTIFIED
DISINFECTION**

According to DIN EN 18753, Part 2, machine SGV 8/5 for rooms, 2015/04/14
© 2016 Kärcher, www.karcher.com

**Almost germ-free.
With no chemicals**

Almost 100 percent of the bacteria on hard floors is completely eliminated without chemicals – you receive this in writing. You save money and the environment is protected. Also pleasant: you never come into direct contact with the dirt.

**The SGV 8/5 goes even one
step further**

The self-cleaning function of the SGV 8/5 guarantees that the hose, tubes and pumps of the machine remain in a perfect hygienic condition at all times. And if cleaning agent is sometimes required for cleaning as an exception, its use is also possible thanks to the integrated chemical function. Intelligent rinsing effectively protects you against inhaling the aerosol.

Easy to use thanks to EASY Operation

One rotary switch. Nothing else is needed to operate this steam pack. All functions are stored on the switch, self-explanatory symbols point the way across all language barriers and reduce training times.

Convenient function control by handle with trigger

You save time with the simple and flexible control of important functions such as the water/steam regulation or the ON/OFF switch directly via the clever handle with trigger.

NON-STOP WITH STEAM

Compact, easy to handle, powerful and full of clever ideas: our SG 4/4 steam cleaner not only ensures a good feeling of hygienic cleanliness. It also impresses for example with a smart filling method for almost uninterrupted work.

**KILLS 99.999%* OF BACTERIA
WITHOUT CHEMICALS**

**CERTIFIED
DISINFECTION**

*According to DIN EN 15113, PVL-GmbH, machine SG 4/4 P-Hose nozzle with
nozzle, 30 cm, color: black/red/blue, VapoHydro steam
Test-Agent: Enterococcus faec ATCC 10541

Two tanks, one job

Simply switch on and within seconds the SG 4/4 delivers a uniform supply of steam from the fresh water tank thanks to the division of the tank. Another advantage of this design: you can replenish the water at any time without having to interrupt the work.

Infinitely variable precision

With our VapoHydro function you adapt the steam pressure and saturation exactly to the respective task. Up to 4 bar steam pressure and every saturation variant between full steam and hot water jet, for removing really stubborn dirt, can be selected.

Neat and tidy

Instead of in your trouser pocket, accessories and small parts are safely stored in the integrated storage compartment. The clever design of the machine even allows the tubes to be stored directly at the rear of the unit.

Clean and gentle to the power of 3

The SG 4/4 eliminates up to 99.99 percent of bacteria from surfaces using only steam. This is not only extremely hygienic, but also gentle in a threefold way: on the surface, on the environment and of course on your wallet.

REMOVE CHEWING GUM IN SECONDS

Paths and terraces, shopping malls, cinemas, hotels, restaurants: chewing gum residue defaces floor coverings and surfaces in many heavily frequented locations. Our SGG 1 removes chewing gum easily. In seconds. For hours on end.

Ecological, effective, powerful

The really smart combination of steam and a biodegradable cleaning agent that we obtain from grain extract only needs a few seconds to effectively remove unpleasant chewing gum residue from many surfaces. The powerful lithium-ion battery of our SGG 1 steam cleaner also lasts longer: with a battery life of around 8 hours, you can keep on working uninterrupted for long periods.

Cordless convenience

Simply fasten the system on your back and off you go on the chewing gum hunt! The convenient backpack system can also be worn effortlessly and practically fatigue-free all day long thanks to the lightweight design of the machine. Combined with the cordless freedom you have a large operating range and achieve maximum flexibility and productivity in work activities.
