

DIESEL SMOKE REDUCER

TO REDUCE DIESEL ENGINE SMOKE EMISSIONS

Description

The Rymax Diesel Smoke Reducer is designed to reduce smoke emissions from diesel engines caused by incomplete combustion or oil consumption.

How to use?

This additive can be used in all diesel engines.

Dosage

Pour the contents of one bottle into the fuel tank before filling with diesel fuel.

Typical Properties

Diesel Smoke Reducer		
Density	g/cm ³	0.80
Flash point		40°C
Colour		Clear/amber
Odour		Characteristic

Benefits

- Promotes maximum combustion efficiency and combustion chamber cleanliness.
- Clean injector channels and nozzles promoting complete combustion
- Suppresses exhaust smoke
- Improves total engine performance
- Lowers fuel consumption
